

Serv-Dawn® Features

- High quality, long lasting, space saving solution
- Provides security against theft and vandalism
- Used as loading dock doors and many other applications where weather sealing is not required

Serv-Dawn™ commercial roll up doors used for warehouses, loading docks, car wash facilities, parking garages, aircraft hangars, fire houses, truck terminals, police stations, correctional facilities, manufacturing and retail applications among others.

Functional Benefits

- 3.0" curved slats available in 24ga minimum with options for 22, 20, 18, or 16 gauge
- Available in galvanized, stainless steel, and aluminum
- Strong and cost effective door with contoured slats
- Heavy duty construction design
- These metal commercial roll up doors can be manual push up, hand crank, hand chain or motor operated. All operators can be adapted to specific conditions.
- Can be installed on the interior, exterior, face of wall or between jambs.

HOOD
Hexagon (option: square or round) in galvanized steel, w/ neoprene air baffle

PIPE/BARREL ASSEMBLY
Steel pipe barrel carrying a curtain load with a maximum deflection of .03"/ft of door width

CURTAIN
Interlocking 3.0" curved roll-formed slats in galvanized steel

GUIDES
Structural steel angles, Alpine gray finish, with a minimum thickness of 3/16" meeting ASTM A36, bolted together with fasteners using minimum 1-1/4" slotted connections

BOTTOM BAR
Two galvanized steel angles, designed to reinforce the bottom of the curtain. Equipped with rubber astragal or an optional sensing edge.

Operational Requirements

- Choice of push-up, removable awning type crank, or motor operation

Optional Materials and Finishes

- Material Options: Stainless Steel or Aluminum
