

Dawn-Grille™ Features

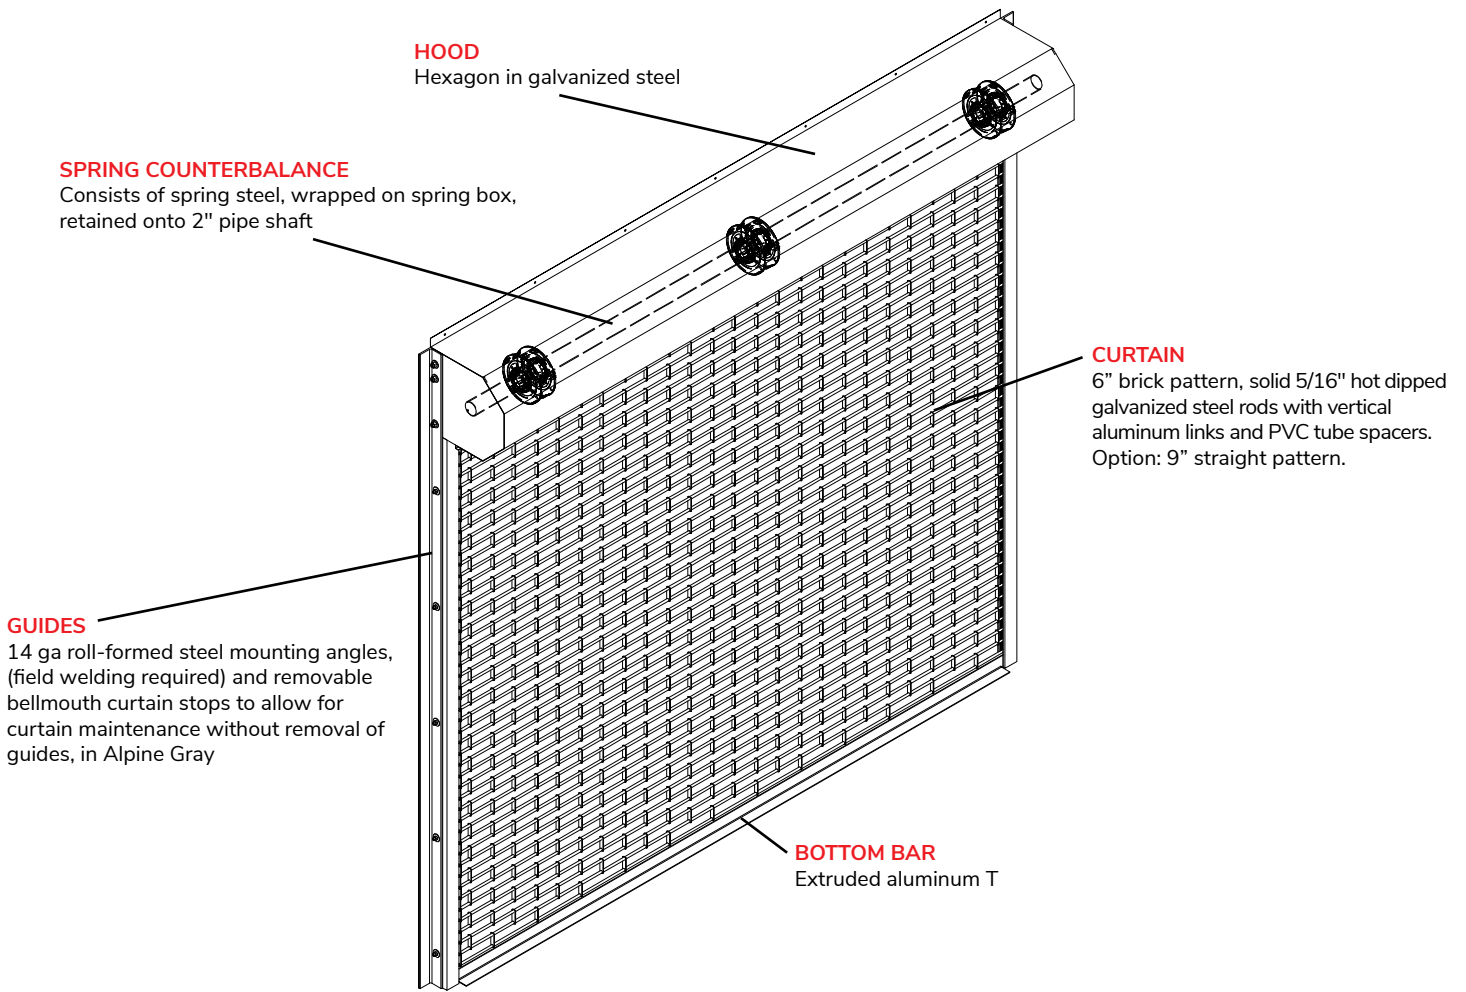

- Curtain consists of solid 5/16" hot dipped galvanized steel rods with vertical aluminum links and PVC sleeves
- Spring counterbalance consists of spring steel, wrapped on spring box, retained onto 2" pipe shaft
- Available in 6" brick or 9" straight pattern

Alpine's Dawn-Grille™ is designed for security while allowing for visibility and air flow. Dawn-Grille is utilized on exterior/interior storefronts and industrial applications, public buildings, flea markets and behind storefront glass.

Functional Benefits

- Our most economical grille, designed for low-use applications
- Slide lock or pin locking mechanisms can be provided as required
- Very durable and require minimal maintenance for many years of continued operational use

Operational Requirements

- Push-up or motor operation available

Optional Materials and Finishes

- Choice of bronze, black, or silver tube spacers
- ExoShield™ Powder Coating (not available on curtain component)
